

Results vineyard

Growing season 2017

A French vineyard planted with the variety Grenache was treated four times with the GOOD FOR GREENS® plant growth regulator. After harvest, a random sample of each treated and control grapes was pressed and fermented. The results are graphically shown below.

Graph 1 shows that the GOOD FOR GREENS® plant growth regulator produces more alcohol.

Graph 2 shows that the GOOD FOR GREENS® plant growth regulator increases maturity as witnessed by a lower acidity.

Conclusion: The GOOD FOR GREENS® plant growth regulator increases maturity and alcohol.
