

## Results Victoria plums Growing season 2017

A plum orchard in the Netherlands planted with the variety Victoria was treated four times with the GOOD FOR GREENS® plant growth regulator. After harvest, a random sample of each treated and control plums was manually sorted and individually weighed. The results are graphically shown below.

Graph 1 shows that the GOOD FOR GREENS® plant growth regulator results in larger plums.

The total weight of the control sample is 4.846 g. An equal number of treated plums weighs 5.095 g, hence the GOOD FOR GREENS® plant growth regulator provides 249 g more fruit weight (5%).

**Conclusion:** The GOOD FOR GREENS® plant growth regulator increases the yield of Victoria plums by 5%.
