

Results Dynasty tulip Growing season 2017

A field in the Netherlands planted with Dynasty tulip bulbs was treated three times with the GOOD FOR GREENS® plant growth regulator. After lifting, a random sample of each treated and control bulbs was collected, sorted weighed. The results are graphically shown below.

Graph 1 shows that the GOOD FOR GREENS® plant growth regulator makes larger bulbs.

Total weight of the treated sample is 8.259 grams for 292 bulbs. The control sample has 8.084 g for the same number of bulbs, meaning an overall increase of 175 g or 2%.

Conclusion: The GOOD FOR GREENS® plant growth regulator increases bulb weight in Dynasty tulip bulbs by 2% and makes larger bulbs.
