

## Results frittilaria

### Growing season 2017

A field in the Netherlands planted with *Frittilaria meleagris* was treated three times with the GOOD FOR GREENS® plant growth regulator. After lifting, a random sample of each treated and control bulbs was sorted and weighed. The results are graphically shown below.

Graph 1 shows that the GOOD FOR GREENS® plant growth regulator produces larger bulbs.

The total weight of the treated sample is 3.145 g for 930 bulbs. After normalizing the control sample from 2.017 to 928 bulbs, the corresponding weight is 1.915 g, meaning an overall increase in weight of 1.230 g or 64%.

**Conclusion:** The GOOD FOR GREENS® plant growth regulator increases the yield of *Frittilaria meleagris* bulbs by over 60%.
