

Results Delft Blue hyacinth 13

Growing season 2019

A field in the Netherlands planted with size 13 Delft Blue hyacinth bulbs was treated four times with the GOOD FOR GREENS® plant growth regulator. After lifting, a random sample of each treated and control bulbs was collected, sorted and weighed. The results are graphically shown below.

Graph 4.1 shows that the GOOD FOR GREENS® plant growth regulator produces a jump in size.

Total weight of the treated sample is 10.093 grams for 100 bulbs. The control sample has 9.201 g for the same number of bulbs, meaning an overall increase of 892 g or 9.7%.

Conclusion: The GOOD FOR GREENS® plant growth regulator increases bulb weight in Delft Blue hyacinth bulbs planted size 13 by almost 10% and makes the bulbs jump a size.
