

Results P. Stuyvesant hyacinth Growing season 2019

A field in the Netherlands planted with P. Stuyvesant hyacinth bulblets was treated four times with the GOOD FOR GREENS® plant growth regulator. After lifting, a random sample of each treated and control bulbs was collected, sorted and weighed. The results are graphically shown below.

Graph 2.1 shows that the GOOD FOR GREENS® plant growth regulator produces a considerable shift in size.

Total weight of the treated sample is 23.82 kg for 800 bulbs. The control sample has 17.48 kg for the same number of bulbs, meaning an overall increase of 6.34 kg or 36%.

Conclusion: The GOOD FOR GREENS® plant growth regulator increases bulb weight in P. Stuyvesant hyacinth bulblets by 36% and makes the bulbs shift in size.
